A note from the team...

Over the past five years we have come to understand the type and style of service, as well as the membership benefits that a business professional leading an incredibly busy life is looking for from joining a private members club.

We offer a unique concept and alternative way to enjoy the benefits of a private members club without a bricks and mortar venue.

Our membership combines an exclusive but organised social life via an exquisite calendar of events, a personal concierge service at your finger tips and a portfolio of member benefits offered by a range of the country's leading providers of luxury goods and services.

The all-inclusive nature of our membership offers the peace of mind that you pay one annual fee for all these benefits without even having to worry about additional event or hospitality costs.

We have truly embraced the lifestyle element of the club with hand selected member only experiences both in the UK and across Europe which suit a range of individual interests.

With a number of membership options as well as varying styles of event there is something for everyone even those hardest to impress.

The club gives you the opportunity to entertain, network and socialise with a range of like-minded friends.

We offer you the very best of social life without having to create it, think about it, or organise it!

With each of our members looking for something slightly different from membership we look forward to discussing your individual needs over a coffee.
