Over the last 8 years we have built a private members' club for high net worth individuals. We also operate a luxury concierge service and have delivered hundreds of private events and parties. During the tough covid times, we created a separate virtual event brand delivering thousands of on-line events to corporate customers, their executive teams and clients.

Our Directors have enjoyed glittering corporate careers with blue chip companies before embarking on their own entrepreneurial journeys and really know how to help with strategy, company objectives and engagement.

Looking at the reward & recognition market, you will find many products and schemes out there for team members and colleagues and all the usual run of the mill corporate hospitality solutions for customers. But who coaches the coach and who leads the leader? Where do you go when you're looking for something very unique for your executive management team and those top tier clients?

We know we have the answer. Our team will use their creativity, contacts and experience to deliver something very special - just as we always do for the clients we already serve.
